

## **2011 – 2012 School Year Parent Survey Synopsis**

We would like to extend a “Thank You” to everyone who completed the Parent Survey last spring for the 2011 – 2012 school year. Your input is heard and valued. This information is reviewed and considered when implementing new programs and procedures at Nativity.

The results and comments from the survey were mostly positive. We continue to look for areas of improvement to make our school the best it can be. All results and comments related to the teaching staff are read, evaluated and addressed as needed by the principal and pastor. Overall, the feedback was extremely positive and reaffirms the fact that we have staff who are dedicated to the education and faith formation of our children.

The academic curriculum is always being evaluated and updated as needed. A new math curriculum for our students in K-5 is being implemented this fall. The Archdiocese has updated the technology plan for all schools. This new plan is being implemented this year. It impacts the curriculum as well as the equipment being used.

We received several inquiries into the feasibility of before and after school care programs. The challenge that exists is that there is not enough space in the current facilities to be able to add these programs.

There were also several inquiries into the ability to add sports programs for grades K-4. At this point, the Archdiocese does not offer a sports program for children in those grades.
